MANUFACTURER'S DECLARATION

Topic: Recycled steel (scrap) content in VÍTKOVICE STEEL, a.s. products.

This document is issued to support Green Building applications / LEED certification process.

VÍTKOVICE STEEL, a.s., ID: 27801454, registered office Českobratrská 3321/46, Moravská Ostrava, Ostrava 702 00, Czech Republic, entered in the Commercial Register held by the Regional Court in Ostrava, Section B, File 3243 (hereinafter "Company"),

declares that:

Flat hot rolled steel products produced by Company, such a plates, sections or shapes are manufactured from steel slabs, billets or blooms, originally prefabricated by Basic Oxygen Furnaces („BOF“).

Content of the recycled steel scrap in slabs, blooms and billets produced by BOF processes is approximately 14% – 28%, the most common (standard) ratio of recycled steel scrap is 20%.

In detail:

Pre-Consumer Recycled Content ratio vary depending on individual pre-material (slabs, billets, blooms) supplier from 35% to 100% (from Total Recycled Content). Average calculated amount of Pre-Consumer Recycled Content in Company production is 70% from Total Recycled Content (it represents 14% from Total volume of Company production).

MR Credit 4: Recycled content

Products	Avg. Pre-Consumer Recycled Content	Avg. Post-Consumer Recycled Content	Avg. Total Recycled Content	Avg. Non Recycled Content
Steel plates, sections, shapes	14%	6%	20%	80%

Yours sincerely,

Otakar Blahož
Quality Manager
